

KADE MEDLEY — TECHNICAL PROFILE

English-first | Prague/Brno | Technical Support / Field Service

Target Roles

- Technical Support Specialist
- Customer Support Engineer
- Application Support (hardware/systems)
- Field Service Technician / Service Technician

Value Summary

Customer-facing technical professional with hands-on experience troubleshooting electronics and equipment systems. Strong at fault-finding, installation/commissioning support, and translating technical detail into clear, practical outcomes for customers and internal teams.

Core Strengths

- Troubleshooting & diagnostics (hardware + systems)
- Installation / commissioning support, testing & verification
- Clear customer communication and issue ownership
- Documentation, handovers, and internal coordination

Typical Work

- Isolate root cause, validate fixes, and confirm performance
- Support installs/commissioning and customer handover/training
- Maintain clear service notes and practical next-step guidance

Languages & Work Authorisation

English: Native | Czech: Elementary (actively improving)
